

**Misinformation Being Distributed by Physician
Groups to
NJ Legislators re: APN practice and FPA
Please READ**

NJ Medical Society and a host of other organized physician groups under the name Access To Care Coalition (ATCC) have penned a scurrilous and false "Fact" sheet meant to cast doubt on the information in the White Paper III. It was sent to all the legislators mid May. Carolyn Torre, RN, MA, APN, FAANP and Suzanne Drake, PhD, APN, authors of the WPIII have compiled a rebuttal complete with links to research.

[ATC Coalition False Facts](#)
[APN Response to \(ATCC\)](#)

Lobbyists for SPAPN, NJSNA (& FNAP) and APNs-A are sending the APN response to all our bill sponsors today, June 8, 2022 and ultimately to all legislators.

It is imperative for APNs to be armed with facts when corresponding with or visiting legislators re. APN FPA bill(s) S1522/A2286, and the White Paper III which explains the rationale for FPA with documentation.

Note that the APN response is filled with hyperlinks which can be accessed when opening doc on computer; if it is printed out, you lose access to the hyperlinks.
